WALTER G. SMITH - EDITOR.

FRIDAY JANUARY 11

Chinese eggs packed in infected mud, watered milk and corner-grocery oleomargarine make a bill of fare which is booming trade in cemetery lots.

Lord Roberts has his earldom for the conquest of the Boers, but in the meantime a British battleship is landing guns to keep them out of Cape Town.

It is pleasing to note that, as Commodore Weaver is a through passenger, Oahu people are under no additional necessity of locking up their hen yards.

Hacks that carry lepers may expect publicity in the Advertiser. Likewise express wagons. The public health must be shielded from unsuspected sources of contagion.

Francis Murphy, the man who made the blue ribbon crusade twenty-two years ago, is in the city and the chances are that Honolulu will have a much-needed temperance revival.

When Gov. Pingree went out he gave the courts, Legislature and press a parting kick for luck. He also brayed. Life in Michigan will be prosaic without Pingree, at least until the circus season is resumed.

The rumor that Von Waldersee is dead is current in Paris but as cable facilities from China are good and not likely to withhold the confirmation of such news, it may be set down as a mild absinthe fake.

BRITISH CABLE
FOR PACIFICA Globe-Girdling Movement is
Started in Canadian
Capital.

OTTAWA, Ont., Jan. 3.—Sir Sanford Fleming addressed a long letter to William Mulock, postmaster general, in favor of a telegraph service to girdle the globe and owned by the State. The letter is said to be the beginning of a movement to nationalize the cable and telegraph service of the empire. The matter, the writer says, affects Canada as well as Australia.

The arrangement for the establishment of the Pacific cable has been completed. The arrangement implies joint ownership, and in the opinion of Sir Sanford, it is the harbinger of a complete system of State-owned telegraphs by land and sea.

With the telegraph system nationalized as suggested, Sir Sanford says that messages may be transmitted to and from the most distant British possessions at one-eighth or one-tenth the rates now levied by the companies. In concluding his letter the writer says:

"British subjects in Canada, in Australia, in New Zealand, in India, in Africa, as well as in the mother country, must unite in securing complete emancipation from the grasp of the great 'cable combine.' At the threshold of the twentieth century high imperial interests demand the cheapest possible telegraph transmission and the greatest possible freedom of intercourse between all the subjects of her majesty domiciled around the globe. I respectfully submit, therefore, that action cannot be taken a day too soon to nationalize our system by land and sea throughout the whole empire."

BISHOP NINDE DEAD.

One of the Heads of the Methodist
Episcopal Church.

DETROIT, Jan. 3.—Bishop W. X. Ninde, aged 68 years, of the Methodist Episcopal Church, was found dead in bed at his home here today. It is thought the cause of death was heart trouble. He attended a funeral yesterday and caught a cold.

Deceased had been a Bishop of the Methodist Episcopal Church since 1884. He was at one time a missionary in India. He leaves a wife, three sons and one daughter.

Yesterday the presiding elders of Michigan held a conference and decided to sell the episcopal residence here, now occupied by Bishop Ninde's family, because the churches of Michigan outside of Detroit and other cities had failed to contribute sufficient funds to maintain it.

Bishop Ninde was well known on the Pacific Coast, having served as superintendent of the work of his church in California, Arizona, Nevada and New Mexico. He was born in Cortland, N. Y., in 1832, and was the son of an Episcopalian preacher. His education was obtained in Wesleyan University, from which institution he was graduated in 1855.

In the following year he joined the Black River conference, where he served several important churches. In 1861 he was transferred to Cincinnati and was appointed pastor of Trinity Church.

In 1870 he became a member of the Detroit conference and pastor of Central Church, Detroit, the leading church in that city. In 1873 he was elected to the chair of practical theology in Garrett Biblical Institute, and six years later was elevated to the office of president. His election to the episcopacy took place in 1884.

Morocco Will Pay.

BERLIN, Jan. 3.—Besides the three principal claims against Morocco previously settled, Morocco has agreed to pay Germany 46,239 duros on account of its claims and to comply with her other demands.

Mme. Patti has sold Craig-y-Nos, her castle in Wales, to Sir George Newnes, the London publisher, for £250,000. Patti, now Baroness Cedarstern, will spend her remaining years in Sweden.

Baron Von Ketteler's murderer, whose public execution took place in Peking, was a soldier who had been ordered to take post at a corner and shoot all foreigners who came by. The execution was bloody and could not have taken place, as the penalty for such an offense in any European country. Before the execution the prisoner laughed several times and said his name would be an honored one.

A Toledo, O., dispatch says: The Kerlin Brothers Company, which supplies heating gas to about 700 families in this city, recently entered a bill to the City Council for several thousand dollars in arrears on a gas plant deal.

The bill was turned down. Tonight, the coldest of the year, the company's agents went beyond the city limits, took out a joint of pipe, plugged the ends and cut off the gas supply, leaving many families absolutely without fuel.

AGUINALDO
AGAIN DEADProfessor Benjamin Ide Wheeler
Starts the Latest Press
Rumor.

NEW YORK, Jan. 3.—Benjamin Ide Wheeler, president of the University of California, who is now staying at the Waldorf-Astoria Hotel, has received information from the secret service in the Philippines to the effect that Aguinaldo is dead, and that his death occurred no less than six weeks ago.

The news has been kept secret by Aguinaldo's followers it is said, for the purpose of prolonging the rebellion, since it was believed that the news of the chief's death would cause such discouragement and alarm that an utter capitulation would result.

President Wheeler obtained this news, so he told the Call reporter today, through several Filipino children who have been placed in his care by their parents. Two are sons of Buencamino, a wealthy citizen of Manila, who before the advent of the Americans in the Philippines, had been an active leader of the rebellion against the Spanish. President Wheeler also has in his charge the children of Midel, governor of Mindanao, and several other boys whose parents are of the wealthy class.

In speaking of the reported death of the insurrectionist President Wheeler said: "These boys of mine, as I may call them, receive frequent communications from their parents and friends at home. The information which was obtained concerning the death of Aguinaldo I understand came from secret and trustworthy sources, and is probably true."

The father of these boys is Buencamino, who, before the Americans came, was most active in the rebellion against Spain. I understand he was a close friend of Aguinaldo, and has kept in touch with that remarkable personage even after Buencamino himself took a neutral stand. Buencamino, however, did not take a firm stand on the side of America until after the election of McKinley, when, along with many other Filipinos, he believed that further opposition to the United States would be futile."

MANILA, Jan. 3.—General Funston reports that General Sandico, the rebel leader, is hiding near Victoria. He is trying to reach Manila. His entire following has dispersed and his men are individually surrendering.

The better classes are extending their friendship and co-operation to the Americans. Small encounters and the surrender of rebels is reported from everywhere. General Alejandrino has apparently escaped, as the Mount Arayat expedition is returning, after killing or capturing a number of insurgents and burning all rebel supplies and shelters.

May Irwin, the actress, plans to build a bachelor apartment house in New York. Each suit will have two to six rooms, with bath, plunge, sponge, needle, shower and any other kind that may be devised by Miss Irwin for the comfort of the bachelors. Each suit is to have a shoe tree, a series of large pigeon holes for hats and a row of electric buttons, the pushing of which will cause to spring out of wall closets the latest things in trousers, handkerchiefs, etc. Shirt casings and cravat casings will be built in. There will also be a button sewing and trouser pressing adjunct. A woman will be in charge to "mother" the tenants.

A station-master of the Franksburg road, has seized a number of cases marked "condensed milk" addressed to Franksburg, which contained 3,000 apt bullets, 500 detonators and 150 pounds of dynamite.
